UB360

The enz® UB360 is specifically designed for internal pipe cleaning at pressures of up to 1000 bar (14,500 psi). Thanks to its sophisticated bearing system, it is virtually leak-free - similar to the Bulldog® - ensuring maximum cleaning efficiency. With its intelligent and robust extension attachment, the UB360 is ideally suited for removing even the most stubborn deposits from pipe walls in pipelines with diameters ranging from 300 to 1200 mm (12" - 48").
